## Inova at glance

INOVA VANILLA is a company headquartered in Sambava in the North East of Madagascar.

This area is renowned worldwide for the quality of its vanilla. We specialize in the collection directly near our producers. We turn green vanilla black vanilla by a traditional process. Our vanilla is natural, selected and harvested at full maturity. This vanilla is grown organically without fertilizers or pesticides while respecting the full development and respect for the process transformation.

We collect and sell our vanilla without any intermediary. The pods are carefully selected, stored in containers and labeled according to ISO standards. We offer simply the best vanilla in Madagascar.

We hope you enjoy reading our catalog and look forward to hearing from you or hear you.
